## Information about subsidiary protection, objection and legal advice

In the past weeks the Federal Office for Migration and Refugees (BAMF) has repeatedly granted subsidiary protection (subsidiärer Schutz) to refugees. These decisions come with a number of disadvantages. For this reason we want to provide information on a couple of topics:

- general facts about subsidiary protection
- subsidiary protection in comparison with other forms of protection
- preparing the BAMF-interview
- legal objections
- financial help for lawsuits

The speaker is Dr. Carsten Hörich. The talk will be in German. There will be translations into Arabic and Farsi.

Organized by the »Council for Refugees in Sachsen-Anhalt«, hosted by »Welcome Treff Halle«.

Tue, 12.07.2016, 14:00 – 15:30
