

The Refugee Council Saxony-Anhalt e.V. supports the rights of refugees and strives for the improvement of their living circumstances.

Since 1994 we are engaged in solving social and legal problems of refugees in Saxony-Anhalt and actively confronting racism and discrimination.

The Refugees Council is a non-governmental organization that is active in all of Saxony-Anhalt:

- › with activities, campaigns, events, information supply and press work
- › with demands towards political decision makers
- › as a networking- and information-centre for refugees, with the possibility to refer them to consulting centres and lawyers
- › with applications to the legal-aid fund from PRO ASYL
- › as a member of the commission for hardship cases ("Härtefallkommission") in Saxony-Anhalt, the round table against xenophobia ("Runder Tisch gegen Ausländerfeindlichkeit"), the federal network of refugee councils and the federal consortium PRO ASYL
- › in networks with initiatives, organizations and consulting centres
- › with support for refugee-self-organization

Our organization is independent from political parties and the church and we are financed through membership fees, donations and project funding.

PRO ASYL-Project: Mobile support of volunteers for refugees

With the increasing number of refugees, the work of volunteers for refugees has grown as well. This project aims to network with and support the volunteers in Saxony-Anhalt. For this goal, initiatives and individuals are being coached through regular and specialised consultations and workshops. Furthermore they receive training and helpful tips, in order to help maintain their engagement over a longer period of time, to strengthen it against political de-legitimation and to make collected experience widely accessible.

PRO ASYL-Project: Actively against the right – strengthening local initiatives

At the latest since the demonstrations against refugee accommodations in Berlin-Hellersdorf in the summer of 2013, Germany and accordingly Saxony-Anhalt experience an alarming wave of unrestrained racist mobilization and violence. Next to established alliances, volunteers from the refugee-aid have proven to be the most important local protagonists against the protesting groups of neo-nazis, racial-nationalists and other racist groups and political parties. This project aims to further strengthen and steady this work and commitment. To achieve this, local alliances as well as individuals are being supplied with consultations and advanced trainings to prepare them for the political conflict in topics concerning asylum politics, anti-racism or right-wing ideals.
